

County of Santa Cruz Board of Supervisors

Agenda Item Submittal

From: Human Services Department: Community Programs

(831) 454-4130

Subject: Deferral of CORE annual progress report to November 2020

Meeting Date: October 20, 2020

Recommendation

Defer report on Collective of Results and Evidence-Based (CORE) Investments to on or before November 17, 2020.

Executive Summary

The Human Services Department requests additional time to finalize the next CORE Investments progress report.

Background

On November 19, 2019, the Board of Supervisors directed Human Services to return in October 2020 with the next CORE Investments progress report. A thorough evaluation process has been completed on the fourth phase of CORE Investments in order to assess community impact and inform planning for the next contracting cycle. Due to the COVID-19 health emergency and CZU Lightning Complex Fire impact on administrative work, additional time is necessary to complete the analysis of the data and provide a full report on CORE Investments progress.
