Subject: Public Comment item ALTERNATE EMERGENCY ROUTES OUT OF LOMPICO CANYON

******CAUTION:**This is an EXTERNAL email. Exercise caution. DO NOT open attachments or click links from unknown senders or unexpected email.****

This E mail is to address the urgent issue of "Alternate Emergency Evacuation Routes out of Lompico Canyon".

Lompico is a neighborhood in Felton located in a BOX canyon with only one way in and one way out. There are 500 homes and hundreds of residents living in Lompico. It is imperative that Alternate Evacuation Routes be identified and constructed for rapid and safe evacuation for Lompico residents.

4 weeks ago Lompico was ordered to evacuate and I left during the warning phase. We had advanced notice this time, but the next time we may not be so lucky.

This issue needs to be top priority, given the relentless march of global warming. Thank you for your time and service to the community.
